

Why and How Do We Tell Others?

John Richardson | 3/27/22

1. What are the problems and pitfalls of “persuasion” evangelism that seeks to convince people of something they need? How have you experienced this style of witnessing?
2. When you experience something that deeply impacts you, what attitude, actions, words, and approach characterize how you share with others?
3. Read Ephesians 1:9-14. How does viewing life as the story of God influence our motivation and approach to telling others about our faith?
4. List several common points of need that all human beings share. How can we use those common points of need as entryways for conversations about God’s love?
5. Read Acts 2:42-47. How did the distinct community lifestyle of the early church contribute to its witness? How should the church today be distinct and yet inviting to those who are far from God?
6. Share one or two people you know who are far from God who you commit to pray for daily and look for opportunities to listen to their story and when appropriate share how Christ has rescued you?
