God's Design for Intimacy & Gender

## Same-sex Attraction

1. This week, we reviewed the last few messages in the series to make sure we had a solid foundation for this message. What part of the foundational principles we covered earlier was the most helpful for you to understand God's design for sexuality?
2. We looked at two passages in the Law of Moses that prohibit same-sex sexual intimacy in Leviticus 18:22 and 20:13. Why are these passages not useful for answering questions about same-sex sexual intimacy today?
3. How have Christians and churches at times incorrectly handled same-sex attraction issues or mistreated people with same-sex attraction?
4. Read 1 Corinthians 6:18-20. Earlier in this chapter, Paul lists homosexuality as one of the sexual sins. What should someone with same-sex attraction do according to Paul?
5. Did you learn anything new about same-sex attraction or God's response to it from this message?
6. What is one thing you can commit to prayer based on this week's message?
