1. The first witnesses to Jesus' resurrection were women, but the apostles didn't believe them! How did this turn out to be a good thing? How does this impact your perspective on the reliability of the resurrection testimony?
2. How does Jesus' response to the disciples' doubt (showing His wounds and eating with them) change how you think He feels about your own doubts?
3. Read Acts 4:8-13 together. What does this show us about the people who initially doubted the resurrection? What can you learn from this boldness?
4. Read Luke 44-53 together. Imagine what this transformation looked like for these people and their community of Jesus-followers! What does that kind of transformation look like for us today?
5. What was your biggest takeaway from the message, and how will you respond?
